ASSASSINATION COMMISSION
9/16/64

I do not share the finding of the Commission as to the probability that both President Kennedy and Governor Connally were struck by the same bullet. The expert testimony, based on measurements and surveys, including reenactment of the motortrip of the Presidential party on that fateful November 22nd presents persuasive case. However, the movement of one of the victims by either leaning forward or to either side or rising a few inches from his seat would have made a considerable difference in the mathematical computations.

I join my colleagues in the belief that three shots were fired but, to me, the testimony of Governor Connally that he heard the first shot fired and strike the President and turned before he himself was wounded makes more logical a finding that the first and third shots struck the President and the second shot wounded Governor Connally. Rrviewing the Zapruder film several times adds
